Did you know that 20% of the students who graduate from the University of Utah receive a degree in a major from the College of Social & Behavioral Science?

Working jointly with the College of Social & Behavioral Science, the LEAP Program has created two courses specifically focused on helping you determine the social science major for you.

LEAP 1101 in the Fall Semester fulfills one of the two general education requirements in Social/Behavioral Sciences. LEAP 1100 in the spring semester fulfills one of the two general education requirements for Humanities, and the University Diversity Requirement. Students will fulfill three requirements toward graduation.

These classes will also fulfill allied hours for your major in the College of Social & Behavioral Science.
